ENLISTED MAN REQUESTS INFORMATION OF PUBLIC

Editor Tribune:—Just a mail from the oppressed, Mr. Editor, and incidentally a query.

There is a regiment of United States soldiers stationed at Fort Douglas, as most of the good people of Salt Lake City are aware, and it is in regard to these men that I seek information. Perhaps you will be good enough to enlighten me, and others.

The soldiers of our army are necessarily recruited from all sections of the country. Some of these men are possessed of good education, some are not. Some are from families of high social distinction, but the larger portion of the army is drawn from the middle classes. Every year many of these men pass successfully the examination for promotion to the grade of commissioned officer, which entails a thorough knowledge of nearly every branch of learning. There are also large numbers of skilled mechanics, such as machinists, carpenters, electricians, as well as many professional men, in the ranks. These men were certainly nearly all of them in good social standing in the community from which they were recruited. They certainly could not be classed as "undesirables." Not so many days ago a certain young enlisted man was refused admittance to a social circle on the grounds that he was a soldier. Previously he had mingled, and his acquaintance was even cultivated, but as soon as it was discovered that he was a wearer of the "blue" he was tabooed. It was not through any objection to him personally, but the knowledge that during the day he wore a uniform was sufficient to debar him from mingling with this particular set. And this set was not alone in the stand taken.

It is well known that but a small percentage of the soldiers of Fort Douglas are seen on the streets in uniform, by far the greater proportion preferring to wear civilian clothing, this course being the more preferable to one which, though possibly the more open, would lead to recognition and consequent debarment from the better class of companionship. In nearly every city in the East this is not the case, to the writer's own personal knowledge, the uniform of a soldier being a badge of respect.

But if it is not the uniform, but the objection to soldiers as a class, consider that it is but the few who offend. And no more so than any other class of men. Make a draft of a thousand men from all walks of life from any city, and doubtless the percentage of turbulent spirits will be much greater than in the army.

And if the editor of The Tribune does not feel equal to answering the foregoing queries will some good citizen take up the cudgel in defense of the enlisted men and serve enlightenment to one, who, it must be confessed, is in comparative darkness in so far as regards a solution of the foregoing.

FORT DOUGLAS.

PLANS ARE COMPLETED FOR OFFICE STRUCTURE OF THE MORMON CHURCH

The new six-story office building which is to be erected by the Mormon church at the corner of South Temple and Richards streets will be thoroughly equipped with all of the modern appliances, and promises to be one of the finest buildings of its kind in the city. It will have a frontage on South Temple street of 99 feet, extending back 100 feet on Richards street. The ground floor will be used for store purposes, and the upper floors occupied by the offices of the Mormon church.

Plans were drawn by Monson & Schaub of Logan, who will also have

charge of the construction of the building. The cost will be about \$125,000. It is expected that work on the new building will be started at an early date.

A real estate deal which will mean the ultimate investment of \$65,000 was consummated Saturday night with the purchase, by Albert Hogan of Mammoth from Theron Goldes, of a lot 99x165 feet, at the northeast corner of Brigham and I. streets. The property faces west and south, with a frontage on Brigham street of 99 feet. The consideration involved was \$15,000. Mr.

Hogan said Saturday night that it was his intention to erect an apartment house on the property, to cost about \$50,000, which will be one of the finest in the city. Plans will be drawn at once, and it is hoped that by fall the building will be ready for occupancy.

This is the second purchase of property in Salt Lake City made by Mr. Hogan within six weeks, the other being a handsome eight-room brick residence at 218 North Second West, with land 8x7 rods, for \$7500. Both of these deals were reported by A. H. Birrell & Co.

PRESIDENT MAKES CHANGES IN NATIONAL FORESTS

Copies of the executive order of President Roosevelt changing the boundaries of certain National forests in northern Utah and southern Idaho have just been received in the Salt Lake City land office. The order of President Roosevelt does not increase the extent of the forests in either State, but simply changes certain lands to a different forest. The order in full reads as follows:

It is hereby ordered that on and after July 1, 1908, the land within the boundary shown on the attached diagram heretofore set apart, reserved, and proclaimed as part of the Bear River National forest shall be known as the Cache National forest. The remaining portions of the Bear River National forest shall continue reserved and constitute a part of the Poudre National forest, as directed by my order of that date.

MANDOLIN AND GUITAR CLUB FOR THE EISTEDDFOF

The Cambrian association, which has in charge arrangements for the great Welsh Eisteddfod, which is to be held in Salt Lake City during the first three days of October, has secured the services of the Salt Lake Spanish Mandolin and Guitar club, under the direction of Prof. C. D. Schettler, for the purpose of giving a number of concerts during the carrying out of the contests.

The secretary of the association is also in correspondence with David Evans of London, with a view to obtaining his services as soloist at some of the sessions. Mr. Evans is a baritone, a pupil of D. Efrangon Davies, the great Welsh baritone, and it is expected that his singing will be one of the features of the Eisteddfod.

MUELLER SAYS BREAD IS OF COMMON PATTERN

Makes Loaf Similar to Staff
of Life the World
Over.

The files in the "Butternut" "Royal" bread injunction and damage suit were augmented Saturday by the filing of an answer by the defendants in the case of the Superior Baking company against the Royal Bakery and Cafe, both of which are managed by George Mueller.

The action was brought to restrain the defendants from imitating the loaf of bread made by the plaintiff company and for damages in the sum of \$5000.

In his answer, Mr. Mueller sets out that for generations past there has been a general standard and pattern for loaves of bread in Europe and America, and that he has been selling bread of the same shape and form that he is now selling since long before the plaintiff company went into business.

Mr. Mueller also alleges that his bread is all branded with his trademark.

REAL ESTATE DAY AT SALT LAKE BEACH

Preparations for the holding of Real Estate day at Salt Lake by the members of the Salt Lake Real Estate association indicate that the affair will be bigger and better than ever before. Judge E. F. Colborn, chairman of the board of governors of the association, said Saturday afternoon that there had been 15,000 people at the last Real Estate day and that it was thought the number in attendance this year would exceed that number by almost one-half, making close to 25,000 people at the affair.

The committees which have charge of the details are busily canvassing the city and securing concessions from the managers of the amusements at Salt Lake, and have already secured a number of handsome prizes which will be given away to those attending the function. Prizes amounting to more than \$5000 in value have already been secured. The business concerns have entered into the scheme with enthusiasm, it is said, and promise their influence to make the affair a great success.

Suit Is Dismissed.

George Peterson's \$15,000 damage suit against the Rio Grande Western Railroad company has been dismissed in the Third District court, a settlement having presumably been made. Peterson sued to recover the value of a hotel at Bingham Junction which was set on fire by sparks from an engine and burned down.

MERCHANTS' PROTECTIVE ASSOCIATION.
A Concern That Collects for a Reasonable Compensation.

The Merchants' Protective association of Salt Lake, of which Francis G. Luke is general manager, is the most efficient collection agency that the Times knows of. For a subscription of \$32 a year and six cents in stamps for every claim, it collects whatever a subscriber sends it, and reports promptly. Our experience is such that we can endorse unequivocally the following statement culled from a page ad. that recently appeared in the Salt Lake Herald: "We collected about \$2000 for the Wood River Times of Hailey, Idaho, within the last two years."

"Many of their claims were from fifteen to twenty-five years old. About \$1500 of this was collected free of charge under their membership contract."

We will do good for you if you turn in your claims.

Success Means Money

The Public Demonstrations of the Call Automatic Railroad Switch have been a perfect success. Thousands of people have visited the O. S. L. yards in the past ninety days, have watched the most critical tests given the switch. Success has crowned the operations.

Today the Call Automatic Railroad Switch Stands Head and Shoulders Above Criticism

Railroad experts, mechanical engineers and the Great General Public pronounce this device the greatest in the history of inventions.

Mr. Walter V. Turner, mechanical engineer, of the Westinghouse Air Brake Co., Pittsburg, Pa., paid us a visit on his way to Los Angeles. He stated: Your invention is one of the most promising of the age. It is actually brains withing itself and there is no reason why it shouldn't be a great success.

The Call Automatic Railroad Switch is a perfect success.

To one who realizes this, the announcement we here make is indeed most important.

Such Opportunities never last long.

To the thinking people of Salt Lake City and vicinity. Mr. Ira A. Call, the inventor of one of the most promising inventions of the age, is one of your home boys. A boy that is worthy of the bright future that is now awaiting him, through whose work and brain the Call Automatic Switch Co. is giving you an opportunity that stands unparalleled in the history of American investments.

Your last opportunity to buy stock of the Call Automatic Switch Co. at ground-floor figures.

SIX DAYS YOUR OPPORTUNITY SIX DAYS

The Call Automatic Switch Co. has met with very flattering success and the manager, with Mr. Ira A. Call, leaves for the East July 2, 1908.

Those wishing stock at ground-floor figures can obtain same for the next SIX DAYS ONLY.

No stock will be sold for \$1.00 a share after July 2, 1908. We present here a great opportunity. In but a short while it will rank with those of the past. Will it be another opportunity that you have let go by?
